<sup>2</sup> Emergency relay calls are given priority over standard relay calls in the same way that voice emergency calls are prioritised over other calls

<sup>3</sup> This will be measured and reported on a bi-annual basis as part of an agreed Customer Research programme

<sup>4</sup> “Abandoned” means that the call is ended by the caller before the Relay Assistant has joined the call

<sup>5</sup> Figures based on Relay Assistant sessions where the average WPM is 41WPM or better; data not logged for individual calls  
All measures except for “>40 wpm” to be averaged over a monthly period

<sup>6</sup> This measure records the % of calls automatically transferred between Advisors across the relay platform

**Comments on Q3 2024-25 KPI report**

The quarter saw a continuing strong performance on all the call answering KPIs.

The two quality metrics were a little off target in December and there's continuing attention on driving performance improvements as we move into 2025.

The number of automatic call handovers reduced during the quarter following increased focus on this KPI from all Relay call handling Teams.
